Dear Hiring Manager:

With a solid background in software engineering and a proven track record of delivering impactful solutions, I am excited about the opportunity to contribute to your team and drive innovation within your organization.

In my previous roles, I have consistently strived to exceed expectations and drive positive outcomes for my employers. At Adlumin, I took the lead in developing a key feature that propelled the company to be recognized as a key vendor for the 2022 MES Matters list, showcasing our commitment to excellence and innovation in the industry.

During my tenure at the Specialty Food Association, I collaborated with a Senior Solutions Architect and a consulting firm to spearhead a program aimed at automating membership dues invoice distribution to over 2000 businesses. This initiative not only significantly reduced the workload of the membership team but also played a crucial role in retaining critical businesses to sponsor philanthropic events, such as the Winter Fancy Food Show. The success of this project resulted in the donation of 8,573 pounds of food to help support Las Vegas-based charities at the 2022 Winter Fancy Food Show.

My experience in software engineering has equipped me with the skills to tackle complex challenges and drive meaningful change. I am adept at fostering a culture of shared responsibility and am always eager to take on new and difficult tasks. I am keen to learn more about the company from your perspective and to discuss my background in greater detail to determine if there is a mutual fit. Thank you for your time.

Sincerely,

Miriam Sullivan
